CHITOSE will give a lecture.		CHITOSE will give a feedback for improvement.		CHITOSE will give a feedback for improvement.	CHITOSE will advise for meetings.

Today's workshop

I make comments on the draft power point one by one.

I want to make this session interactive session.

We can spend only 10~12 minutes for one session (=one incubation center).

You are more than welcome to make explanations, comments, questions in the session.

You can learn from the conversation between an incubation center and me even if it aims at other incubation centers.

I cannot make all comment in this workshop.
More detailed discussion will be made in the one-on-one session.

I may sometimes misunderstand your intention on the presentation, and make wrong comment based on that misunderstanding.

I'm sorry
in advance

Last but not least, I really appreciate for your hard work to develop the presentation, within the short period.
