Grievance Redress Structure

First tier of Redress: The Grievance Redress Focal Point (GRFP)

- The complaints are received at various points at University Level. The stakeholders are informed of various points and channels of reporting their complaints (if any) and the GRFP collects the complaints from these points on a regular basis, assesses and clearly records them in the RSIF Grievance Redress Log Book. This is followed by formal acknowledgement of complaints received and coordinating with the concerned people to address the Grievances.
