## Information Literate Scholars

✓ Know how to access information effectively and efficiently

Recognise these feelings?

Information Overload YET too little relevant information OR even lack of needed information!

img source: <https://tinyurl.com/4xzisubw>, <https://tinyurl.com/49v47nww>

The slide features two main illustrations. On the left, a cartoon man with a shocked expression has his hands on his head, surrounded by a chaotic cloud of various icons representing different types of information and technology. On the right, a photograph shows a person sitting at a desk, completely buried up to their chest in a massive stack of papers and documents, with only their head and hands visible, symbolizing being overwhelmed by information.

### **Boursiers maîtrisant l'information**

### **Savoir comment accéder à l'information de manière efficace et efficiente**

Reconnaissez-vous des sentiments dans les images ?

Surcharge d'informations ET pourtant trop peu d'informations pertinentes OU même un manque d'informations nécessaires !
